<b>Date</b>	September 18–19, 2026
<b>Course Hours</b>	08:30 AM – 05:30 PM
<b>Location</b>	Former Hospital Heiden, Werdstrasse 1A, CH-9410 Heiden
<b>Organizer</b>	Tongue Time GmbH, Wolfgangstrasse 2, 9014 St.Gallen
<b>Course Fee</b>	CHF 800.- (includes morning and afternoon refreshments and a 3-hour on-demand preparation module; lunch not included)
<b>Course Language</b>	English
<b>Course Description</b>	<b>Elevate Your Understanding of Pediatric Neurodevelopment, Oral Function and the Brain–Body Connection</b>

The Pediatric Bootcamp & PIPS™ Technique Certification is a highly regarded training for manual practitioners seeking to deepen their understanding of pediatric neurodevelopment, oral function, and the brain–body connection from infancy through adolescence. Participants explore pediatric neurological and tonal assessment, functional tongue–tie and oral motor development, pediatric TMJ dynamics, primitive reflexes, and the relationship between tongue posture, vagus nerve regulation, and posture while learning the PIPS™ (Pediatric Intraoral Palate Specific) Technique. Combining clinical insight with hands–on learning, this unique course equips practitioners with practical tools to elevate their pediatric care and positively influence the development and well-being of the children and families they serve.

## Instructor

Dr. Jenna Davis is an internationally recognized chiropractor, educator, and speaker specializing in preconception, prenatal, postnatal, and pediatric care. She is the owner and clinical director of Acorn Family Health and Wellness Centre in Oakville, Ontario, where she leads a multidisciplinary team dedicated to optimizing the brain-body connection to enhance neurological function and overall well-being for families.

Dr. Davis created the P.I.P.S. Technique (Pediatric Intraoral Palate Specific Technique), a specialized approach for pediatric TMJD, tongue-tie, lip-tie, dural tension, and oromotor challenges. Through her coaching and training company, Baby Boom Creations, she trains and certifies healthcare professionals worldwide, advancing care for infants and children.

A sought-after keynote speaker, Dr. Davis has presented across North America, Oceania, and Europe at leading conferences for manual practitioners, dentists, airway specialists, medical doctors, pediatricians, and oral and feeding therapists. Her engaging, research-driven presentations cover pediatrics, tongue and lip ties, oral function, childhood development, primitive reflexes, neurodevelopment, women's health, and communication.
